

## **Minor Impact Soft Tissue Injury MIST**

“No Crash No Cash”

Minor Impact Soft Tissue (MIST) Injury is often defined as vehicle damage that is less than \$1,000 in vehicle damage.

Minor Impact Soft Tissue (MIST) Injury cases are regularly referred to the insurance company's Special Investigation Unit (SIU), which means the insurance company considers them to be

### **FRAUD**

The Special Investigation Unit (SIU) has an enormous amount of financial and personnel resources.

The Special Investigation Unit (SIU) routinely officially accuse the patient and treating doctor of FRAUD, a crime.

It is common for the Special Investigation Unit (SIU) to make complaints against MIST treating chiropractors to their Board of Examiners. If the Board of Examiners agrees with the Insurance SIU investigators, the Board complaint may be accelerated to the State Attorney General office for prosecution. Sadly, these State Attorney General cases are not considered to be malpractice, and the defense of the chiropractor is not covered by one's malpractice carrier.

### **SADLY**

The best-informed biomechanical analysis and the best expert opinions are not enough to prevail at any level of these MIST cases.

### **WINNING SOLUTION**

Find hidden property damage.

This requires an investigation by a forensic automobile mechanic.
